

Fecal Parasite Analysis Form

1. Collect 1 small fecal ball in a secure Ziploc bag or fecal sample container.
2. Print the information needed on the form below and staple the form to the Ziploc bag.
3. Drop off the fecal sample to Cedarbrook Veterinary Care within 12 hours of collection (or refrigerate up to 24 hours if there is a delay).
4. Fecal tests are \$30.00 per horse. It is recommended that you test each horse in your herd at least twice a year to establish their eggs per gram count to help determine an appropriate de-worming program for your horse.
5. Test results can take up to 48 hours.
6. Cedarbrook Veterinary Care will contact you with the results and de-worming recommendations for your horse after veterinarian review.

Date Sample Collected: ____ / ____ / ____
