

Split a Call

Does your horse need a routine physical, vaccines, dental care, lameness exam, chiropractic or acupuncture? If so, why not try to save some money and split a farm call? As a service to our regular clients, Cedarbrook Veterinary Care will split the farm call if you coordinate with other horse owners at your barn for services. **The more people the less the farm call fee will be!** Click on our Split a Call flyer here or call our office for details.
